SMALL BOYS MUST GET OFF STREETS AT NIGHT

Washington, Aug. 24.—The small boy who roams the streets late at night with the plea that he is "stuck" with his papers, or selling shoestrings to support a widowed mother, or any one of a thousand excuses will hereafter be under the ban of the curfew and no longer will these youngsters be a source of annoyance to wayfarers.

The child labor law has been amended by the authorities so that the permits given under it stipulate that the lads shall not engage in traffic after 8 o'clock at night.

The child labor law inspectors, in a report on the operation of the measure in the district, pointed out that one of their chief difficulties was in dealing with boys of this class who constantly loitered about saloons and other resorts.

The new regulation will be enforced rigidly.

WOMEN DESIRE TO END THE BIG STRIKE.

Stockholm, Aug. 24.—A petition signed by women from all classes of society has been presented to the king, begging him to intercede to bring about arbitration of the dispute between the laborers and their employers that resulted in the strike now almost a month old. The ministry of the interior has sent telegraphic instructions to all local governors to take drastic measures to protect the laborers who have returned to work.

HE OFFERS HIS TITLE.

New York, Aug. 24.—Any American who desires to win a title is offered an opportunity to do so through an advertisement published here today. It reads: "Lord of high nobility, prince, duke, wishes to give his nobility title by legal means against a large sum of money. Send offers to A. M. L., office de Publicite, Brussels, Belgium."

It is not known here whether the advertiser wishes to share his titles with a rich American woman as his wife, or sell them outright.

DENIES STORY OF TRAFFIC IN INDIAN SCHOOL GIRLS.

Lawrence, Kas., Aug. 24.—J. O. Milliken, disciplinarian of Haskell institute here today declared to the Associated Press that the story of alleged traffic in Indian girls attending this school is absolutely untrue. Mr. Milliken insisted that there was no basis for any such story. He stated further that there was no thought of asking the federal authorities to make an investigation, as there was nothing to investigate.

BEET SUGAR CROP IS LARGE

SUGAR CONTENTS OF BEETS IS UNUSUALLY HIGH.

Digging Season Will Begin Within the Next Two Weeks and Factories Will Soon Open.

Within two weeks time the farmers of Weber and Box Elder counties will begin digging their sugar beets to supply the factory for the sugar-making campaign that will begin immediately after the hauling of the beets.

The prospects for the beet crop this year are better, according to Emil S. Rolapp, assistant secretary of the Amalgamated Sugar company, than they were last year. Mr. Rolapp says the acreage is no greater this year than the year before but that climatic conditions have been such this season that a better quality of beets has been raised.

According to recent investigation, the beets this year have much more sugar in them than for a number of years past and it is more than probable that but very few beets will be refused because of their low percentage of saccharine.

"Unless we should be visited by heavy rains during the digging season—within the next two months," said Mr. Rolapp today, "the beets of this year's crop will produce more sugar than ever before, hence the output of the factory will be greater. The beet digging campaign will begin within the next two weeks and, as soon as there is a sufficient supply at the factory to justify starting the mills, they will be opened and the real sugar making will begin in dead earnest."

The beet crop this year will be taken from about 6,000 acres of land and it is safe to figure that each acre will produce fifteen tons of beets. The crop will amount to about 90,000 tons.

BABY SHOW AT THE GLOBE

The Baby Show running at the Globe Theater is just a little extra attraction put on by the management in addition to the regular full hour show of pictures and songs.

Every mother thinks her baby the prettiest and sweetest and rightly so, too, and this little friendly contest is put on as an added attraction and in no way detracts from the regular show. We have eight babies entered for this week and a number for next week.

The pictures at the GLOBE are as fine as any run in the city and we can guarantee that none of them have ever been shown here before.

Master Rogers, the BOY SINGER, is with us again and our patrons are assured good singing from this sweet voiced child.

BARRY AND BURNS ARE TO FIGHT TONIGHT

Los Angeles, Cal., Aug. 24.—Trim and ready, Jim Barry and Jack Burns are resting today waiting for the going which will start them on a 10-round battle which will be a feature at Naud Junction pavilion tonight. Because of the fact that Jack Johnson, the negro heavyweight champion, wired Promoter Tom McCarey last night that he would take on the winner some time next month, the fight tonight is of supreme importance to both principals. To Burns the Salinas man, it will be the event of his life, for by defeating Barry he will not raise himself above the class of preliminary fighters but will have the opportunity to help Jim Jeffries remain in retirement by beating the black.

ROOSEVELT'S AFRICAN PELTS FAIL TO REACH WASHINGTON

Washington, Aug. 24.—Where are those African pelts Colonel Roosevelt sent to the Smithsonian Institution here? They have been chronicled as arriving in New York and the Smithsonian officials have been daily expecting them here ever since. Now they fear there was some error in the announcement of their having reached New York.

The skins of the animals shot by Colonel Roosevelt will be mounted and placed in the National museum, when they get here, but in the meantime the efforts of the officials are being directed to locate the shipment.

BURGLAR PROVES TO BE A WOMAN OF CHICAGO

Chicago, Aug. 24.—Charged with having plundered a Northwest Side residence in true burglar fashion and with having swindled several women of the same section out of small sums of money, Mrs. Brunel Kaczor, 45 years old, is a prisoner at the West Side Chicago avenue police station. Neighbors who are said to have identified the prisoner, declared that the woman entered the home of one of the victims by forcing a front window and climbing through the aperture in daylight.

MOTHER DIED IN EFFORT TO AID HER SON

Escanaba, Wis., Aug. 24.—After running several blocks in the darkness to get aid for her son, who had been scalded in the explosion of a boiler tube in a stove mill, Mrs. Louis Courtright dropped dying on the porch of the doctor's house last night, when she had gasped her mission. She had been ill for some time and died within a few minutes. The doctor hastened to the aid of the son, who has good chances to recover.

GOVERNOR JOHNSON UNDER THE KNIFE ONCE MORE

Aurora, Ill., Aug. 24.—Governor John A. Johnson of Minnesota will go into a hospital September 1 for a fourth operation for appendicitis.

A statement by the Minnesota executive that he would be compelled to undergo this fourth ordeal under the knife was made public at Aurora yesterday.

DECISION IS FAVORABLE TO WIFE

BANKRUPT CANNOT INVOLVE HIS WIFE'S PROPERTY.

Judge Marshall Sends the Case of A. H. Bailey Back to the Ogden Referee in Bankruptcy.

Judge John A. Marshall of the Federal court, in a decision handed down Monday, held in the case of A. H. Bailey, a bankrupt of Ogden, that an interest held by a wife in real estate cannot be compelled to contribute to the liquidation of her husband's debts.

Bailey and his wife own a homestead in Ogden valued at \$2,500. Mr. Bailey owns a half interest in the property for which she paid with her own money. The wife claimed her half was exempt, but the referee in bankruptcy included her interest.

Mrs. Bailey, with her husband, signed a mortgage to secure certain of Mr. Bailey's debts. Then she claimed exemption on her half as she never consented to its inclusion in the mortgage. Judge Marshall holds that the exemption is to the bankrupt, against his debt, and out of his property, and the interest of the wife remains intact. The case is sent back to the referee to determine the homestead right of the bankrupt and the wife's interest in the property as claimed to be exempt.

AT THE ORPHEUM.

There will be a matinee at the Orpheum tomorrow afternoon. All seats are reserved. The prices are 15, 25 and 50 cents. The show this week is a strong one and includes the famous English boy comedian, Laddie Cliff, who made a big hit last night. The rest of the bill is equally entertaining. It consists of the Eight Original Madcaps, acrobatic dancers; Frank Mostyn Kelly and company in "Tom and Jerry," a very funny sketch; the Singing Collieries in songs of the old and new world; Cooper & Robinson, singing and dancing comedians; and Grace Armond, a dainty young comedienne in straight and character songs and monologues.

There will be a performance every night this week.

RICH MINES IN DEATH VALLEY

OWNED BY M. J. WEST AND ASSOCIATES OF OGDEN.

Property Yields Shipping Ore and Richness of Ore Chutes Increase With Depth.

M. J. West, at the head of the Death Valley G. M. & M. Co., will leave Ogden the end of the week for his mining property and will take with him miners to augment the force now extracting ore on the Confidence claim.

Mr. West lately sampled the mine and had tests made in Salt Lake which returned \$167.20 in gold from an upraise on the 150-foot level, which is the deepest working in the property.

His sacked ore from the upper levels runs from \$9.60 to \$12.50 and the dump screenings show \$12 and over.

A copper outcrop on the Mendicino claim, also owned by Mr. West's company, returns most promising assays. At 12 feet two feet of the ore yields \$60 in gold and a big dyke shows 3 per cent copper and \$12.50 in gold.

These properties were worked 22 years ago, when the nearest railroad point was at a distance of 100 miles.

EVEN DEMOCRATS FAVOR AIDING MERCHANT MARINE

San Francisco, August 24.—After a trip around the bay where scores of ships are rotting for lack of merchant ships to carry at a profit, several of the delegation of congressmen on their way to Hawaii expressed themselves as favoring a ship subsidy appropriation rather than a state of stagnation such as was shown them yesterday. At a banquet last night, Congressman A. J. Barchfield of Pennsylvania, came out flat-footed in advocacy of a subsidy. He said in part: "The gist congress will write into the statute books a ship subsidy that will build for this nation a merchant marine of which it need not be ashamed."

Richard Bartholdt of Missouri, after commenting upon the \$100,000 which Adolphus Busch had contributed to San Francisco after the fire said:

"I hope to use the treasury of the United States to contribute more than Busch did for San Francisco. I realize that it is impossible under present conditions for our merchant marine to compete with those of other nations without either government aid or a cheapening of labor."

Among others who expressed themselves in favor of the subsidy were: Politte Evans, George W. Taylor, A. F. Dawson, Charles F. Scott, W. R. Ellis, W. A. Rodenberg, W. Aubrey Thomas, H. C. Woodyard.

STRANGE THINGS ARE SEEN IN THE AIR

New York, Aug. 24.—The nightly appearance of a strange air sailing craft has mystified and agitated the residents of suburban towns in northern New Jersey. What is described as an airship, sometimes containing one person and at other times two, has been observed at night making rapid flights high in the air. Attention has been attracted to it by the loud exhaust from its motor. Residents of Mont Clair are the latest to report having seen it. This airship, which is of the aeroplane model, is believed to belong to an experimenter who has his headquarters in some isolated section, and who is preserving secrecy.

NEVADA HAS A BRIGHT FUTURE

THOMAS S. CARNAHAN IS BACK FROM TONOPAH.

Speaks Well of the Mining Outlook and Says He Looks for a Restoration of Prosperity.

Thomas Carnahan returned from Tonopah, Nevada, yesterday after an absence from home since last January. He is very optimistic regarding the outcome of that thriving little city. He is of the opinion that Tonopah is among the foremost mining camps of the great state of Nevada and Mr. Carnahan ought to be a good judge of mining camps. He is a mining engineer of ability and good judgment. Mr. Carnahan states that Tonopah has a population of 5,000 people and that the city is now well supplied with spring water. It is connected with the outside world by two railroads, one extending from the main line of the Southern Pacific and the other from the main line of the San Pedro.

Speaking of southern Nevada from an agricultural point of view, Mr. Carnahan says the Mason valley, a hundred miles north of Tonopah, is one of the finest agricultural regions in the whole western country. Water in the valley is a little short but there are ample opportunities for reservoiring the Walker river that traverses the heart of the valley. In this valley is situated the Yerington copper properties.

Of the mining interests of Tonopah and southern Nevada, Mr. Carnahan says:

"After suffering severely from the panic, the mining camps of Southern Nevada are now rapidly on the improve. Particularly is this true of Tonopah where fully a half dozen mines are making handsome profits at the present time. This argues well for the merit of this district for Tonopah is primarily a silver camp, and silver is selling about as low as it has in many years."

"Of the mines, the Tonopah Mining Co., heads the list, and at its present rate of \$1,400,000 in dividends annually it easily leads all other silver mines of the United States. The other mines are spending a great deal of money in development work, but withal are constantly adding to their cash reserves, while the physical condition of the mines is daily improving. With the exception of the McNamara Mine which ships to the Balaklava Smelter, the ores of this district are treated at local mills, where the extraction averages about 90 per cent of the mineral contents of the ore."

"The ores at present being mined average from \$20 to \$40 per ton, and of this grade of material there is at present in reserve not less than two years' supply at the present rate of production, in all the more important properties. As all the companies have adopted a policy of extensive development, there is no doubt but that this reserve will be added to rapidly in the future."

"Tributary to Tonopah are such camps as Manhattan, Round Mountain and Blair, all producing more gold than at any time in their history, while more recently such camps as Golden Arrow, Ellendale and George's Canyon all east of Tonopah have sprung into prominence."

"The Hawthorne district while not exactly tributary to Tonopah, adds to the prosperity of the town, since many Tonopah people are interested there, and many of those who lost their fortunes in the panic are looking to the holdings at Hawthorne to pull them out."

"At Goldfield, the people are making every preparation to entertain the thousands that will attend the Mining Congress, and just to see the mines and mill of the Goldfield Cons. Mines Co., which, with its dividend rate of over \$4,000,000 annually, leads the gold mines of the world, will be worth the trip to anyone interested in mining."

HAS A VERY NARROW ESCAPE FROM DEATH

Harold Cannon is Fearfully Burned While Splicing Telephone Cable.

Salt Lake, Aug. 24.—Harold Cannon, a son of Angus M. Cannon, Jr., district manager of the Rocky Mountain Bell Telephone company, had an almost miraculous escape from death while splicing a telephone cable on Fifth East street, between Tenth and Eleventh South streets, Monday night at 7 o'clock. Badly burned on the right hand, arm and left foot, he was lowered from the telegraph wires and taken to the Emergency hospital, where his injuries were attended by Dr. Steele.

Young Cannon was employed in splicing the cable of the Bell Telephone company, just prior to the accident, and had been seated in the carriage suspended from the cable. Climbing up out of the basket, he sought to move it to the other side of the telegraph pole. In doing so he placed his left foot and his right hand on live wires, which formed a circuit through his body. His cries brought a large crowd of persons, who gathered below, but could offer no assistance.

C. C. Helson, another cable splicer, who was working a short distance from Cannon, hurried to his assistance and lowered him to the ground. The current had burned its way through his left shoe, cooking the flesh in the sole of his foot, and burning a large hole.

INQUIRY HELD OVER THE DEATH OF JOHN MCINTOSH

Red bluff, Cal., Aug. 24.—A coroner's inquiry which investigated the death of John McIntosh who was beaten to death in the jail last Sunday early today returned a verdict accusing John Lowery, another prisoner, of murder. The evidence indicated that in the opinion of the jury Lowery killed McIntosh with repeated blows from a shoe and that Lowery also beat and seriously injured Jerry Desmond, the third prisoner in the cell.

MELON DAY AT THE FAIR

PREPARATIONS FOR THE BIG EVENT BEING MADE.

Meeting at Weber Club Wednesday Evening—"Melon Day" Will Be Drawing Card.

That "melon day" is going to be an attractive feature of the Four-State Fair is attested by the fact that the business men and farmers generally are so much interested in it that they are putting forth especial efforts to accomplish the best results.

A meeting has been called for Wednesday evening at 8 o'clock at the Weber club which will have for its purpose the making of final arrangements for the day. It is expected that the gathering will be well attended and that details regarding the arrangements will be entered into.

Those who are to attend are the Ogden commission and produce merchants, the directors of the Weber club and the directors of the fair association.

It is argued by the business men of the city that Ogden and Weber county ought to have some special day each year and that every effort should be made to make it an interesting and profitable affair. September 10th has been designated as "Melon day" and it is certain that it will be one of the greatest days of the fair.

WANTED.

Brick teams at once. Short haul. Apply Calvert & Leek.

RAILROAD COMPANY SECURES ENTRANCE TO NEW ORLEANS

New Orleans, Aug. 24.—After many delays and much difficulty in securing an entrance to New Orleans, it was positively announced by St. Louis & San Francisco railroad officials today that the trains of that system would be running into this city on September
